## **INFORMATION**

In presenting my 1937 Catalog I take this opportunity to thank my many customers for their liberal support in the past and hope I may serve them again as well as many new customers. I personally put up each order and carefully inspect each root sent out. I guarantee all stock to be true to name and in good condition. My Dahlias are grown without forcing, with sufficient potash in the soil to insure strong roots.

Consider ordering as early as possible as the stock of some varieties is limited. I start shipping March 5th if weather permits, but will ship any specified time after that date. Directions for growing and keeping the roots over winter sent with each order.

All orders over \$1.00 sent postpaid; for \$1.00 or less add 15 cents for postage.

Terms: Cash with order or one-third of the amount with order and balance before shipping date. Remit by check, post office money order or registered letter.

I do not substitute unless requested to do so, but would suggest naming two or three as second choice when ordering late in the season.

Reference, York National Bank, Saco, Maine.

•	

Rainbow's End, I. D.—The coloring of this Dahlia is all that the name indicates—the petals are scarlet with empire yellow tips and maize yellow reverse—a most unusual and beautiful combination. The flowering habits are good and the plant is strong, healthy and insect-resisting. Scored 82 at Storr's in 1932 and has won first honors wherever exhibited. We recommend Rainbow's End from every standpoint	.75

Rose Fallon, F. D.—Most wonderful flower of enormous size, held erect on straight, strong stems; this magnificent bloom is a beautiful color of deep old gold of the finest type	.25
Saladini, F. D.—This is one of the truly outstanding Dahlias, its strong points being reliability of bloom, profusion and sturdiness of growth. A clear apricot orange. Buckeye Bride is the only variety that equals Saladini in cut-flower production	.30
Sanhican's Queen, F. D.—A Dahlia of unusual color, described as honey-dew, which is a blending of apricot with a faint blushing of carmine rose, deepening towards the center. Stems are absolutely perfect being strong, stiff and canelike	.30
Satan, S. C.—Flaming red with a slight touch of gold at the center. The exquisite coloring is at once fascinating, but what formation and stems! The horn-like petals, so perfectly rolled and incurved, give rare form and character to a flower of unusual brilliancy. The rugged, almost leafless, stems give the impression of being nearly as thick at the top as at the base. No Dahlia in existence, we believe, is more sensational and spectacular than this giant Cactus. Wherever exhibited it becomes the general favorite. At New York it was runner up for largest Dahlia and it won as best flower at several other shows. At Storr's Official Trail Gardens it scored 87	.75
Shahrazad, I. D.—A most regal Dahlia named for the Queen in the Arabian Nights. Color a deep pink. Flowers 10 to 12 inches in diameter with great depth and splendid substance. Fine, cane-like stems. Bush tall and vigorous. Easily one of the most outstanding of recent originations	.45

The Commodore, I. D.—A very large and spectacular, lemon yellow Dahlia overlaid with a golden sheen. Many blooms attain 14 inches across. The giant blooms are of good depth and are held high above the foliage by long stiff stems on a widespreading, medium height plant of sturdy growth	.45
The Grizzly, I. D.—One of the finest. Color, dark velvety crimson and maroon	.32

Hart, says of this Dahlia: "An aptly named flower with an unusually rich and impressive color. It is deep garnet, almost black, as rich as the finest velvet in texture"	.38
